VAQ502pre I'm going to read to you questions on a number of topics. We have to ask the questions as they have been written so that everyone answers the same questions. This way doctors and researchers can get the best picture of people's health.

There are different kinds of questions:

- Some of the questions ask you to choose between Yes or No.
- Other questions ask you to choose from a list of things.
- Still other questions ask you to rank something along a scale.

Please let me finish reading the **entire** question before you answer. From time to time I will refer to cards to prompt you for answers.

I cannot interpret questions for you. Please choose the answer that is closest to what the question means to you. I will be happy to answer any questions you have about the interview when we are finished. We would like you to answer all the questions, but if you are uncomfortable with a question, you may choose to not answer it. All of your answers are confidential.

Do you have any questions before we begin?

INQ100pre1 The next questions are about your income in the **last 12 months**. In the United States income has been associated with health status, ability to get insurance, and ability to follow screening and treatment recommendations.

This information, like all the information you provide, will be kept confidential. When answering these questions, please remember that by income we mean income **before taxes** and from all sources.

Here is a card with typical sources of income.

**(INTERVIEWER: HAND SOURCES OF INCOME CARD)**
