

HEALTH HISTORY PART I

HHQ100pre This next questionnaire is about your personal health history.

I will ask you if a health professional ever told you that you have or had certain common health problems in your lifetime and if so, how old you were when these occurred.

For some health problems I will ask you about the treatment you received. If there is any question that you don't know the answer to let me know. If there is any question that makes you uncomfortable you may ask me to skip the question.
