

### Section G: Discrimination

These questions are about the way you have been treated during your life. We know from other research that unfair treatment related to race, age, gender, culture, religion, physical appearance, and sexual orientation are common, and very important to consider in understanding people’s health. The answers to these questions will help us understand different experiences people in the SHOW study have had. There are no right or wrong answers, only your experiences. Please remember that any information you provide is strictly confidential and will never be identified with you as an individual. Let’s start with experiences you may have had on a day-to-day basis.

1. Please mark the circle in the column that most closely matches how often this has happened to you.
