

TEST YOUR PRIVATE WELL ANNUALLY

WHY SHOULD I TEST MY WELL?

Private well owners are responsible for regularly testing and maintaining their well. Unwanted substances known as contaminants can get into private well water.

Contaminants in your drinking water may lead to health problems. This makes private well testing important for better health.

Testing is often not required but is encouraged because many contaminants may not cause any change in your water's taste, color, or smell.

WHAT SHOULD I TEST FOR?

The Wisconsin Department of Natural Resources (DNR) recommends these tests for common contaminants that can be harmful to human health:

1 Bacteria

- Test once a year
- Test any time the well is modified
- Test any time there is a change in smell, taste, or color

3 Arsenic

- Test when a new well is installed
- Test yearly if arsenic was previously detected
- Test at least once every 5 years

2 Nitrate

- Test once a year
- Test before a pregnant person or infant drinks the water

? Additional Tests

Additional tests may be recommended for your situation. Please see go.wisc.edu/water-testing for more information.

WHERE CAN I REQUEST A TESTING KIT?

Portage County Health and Human Services

Monday - Thursday 8:00 am - 4:30 pm, Friday 8:00 am - 3:00 pm

817 Whiting Ave, Stevens Point, WI 54481

Call: (715) 345-5350

Email: pchhsd@co.portage.wi.us

www.co.portage.wi.us/departments/planning-zoning/groundwater-management

Additional certified labs at:
<https://go.wisc.edu/private-wells>

Portage County is also offering free and more comprehensive water testing as a part of the COVID-19 recovery funding. Anyone with a private well is eligible for the testing, and depending on test results may be eligible for additional funds to update or replace their private well.

WHAT SHOULD I DO IF I HAVE HIGH LEVELS OF CONTAMINANTS?

1 General Questions?

Contact your local health department, or the testing agency you used.

3 Learn About Mitigation Strategies

Find more information on filtration and other household water treatment systems at:
<https://go.wisc.edu/mitigation-strategies>

Find a water treatment device for your needs on the National Science Foundation's Website:
<https://info.nsf.org/Certified/DWTU/>

2 Learn About Health Concerns

Contact: Wisconsin Dept of Health Services
(608) 266-1120
dhsEnvHealth@wi.gov
<https://go.wisc.edu/dhs-private-wells>

4 Schedule Well Repairs

If your tests indicated a problem, you may need to contact a well driller or pump installer.

Find a list of contacts by county here:
<https://dnr.wisconsin.gov/topic/Wells/contacts.html>
