WHY SHOULD I TEST MY WELL?

Private well owners are responsible for regularly testing and maintaining their well. Unwanted substances known as contaminants can get into private well water.

Contaminants in your drinking water may lead to health problems. This makes private well testing important for better health.

Testing is often not required but is encouraged because many contaminants may not cause any change in your water’s taste, color, or smell.

WHAT SHOULD I TEST FOR?

The Wisconsin Department of Natural Resources (DNR) recommends these tests for common contaminants that can be harmful to human health:

1. **Bacteria**
   - Test once a year
   - Test any time the well is modified
   - Test any time there is a change in smell, taste, or color

2. **Nitrate**
   - Test once a year
   - Test before a pregnant person or infant drinks the water

3. **Arsenic**
   - Test when a new well is installed
   - Test yearly if arsenic was previously detected
   - Test at least once every 5 years

Additional Tests

Additional tests may be recommended for your situation. Please see go.wisc.edu/water-testing for more information.
WHERE CAN I REQUEST A TESTING KIT?

Waukesha County Parks and Land Use Office, Rm AC260
515 W. Moreland Blvd., Waukesha, WI 53188
Test kits are available Monday – Friday 8:00 am - 4:30 pm
call: (262) 896-8300
e-mail: eh@waukeshacounty.gov
https://www.waukeshacounty.gov/watertest/

Additional certified labs at:
https://go.wisc.edu/private-wells

What does testing cost?
Recommended test package-
Owner-collected sample: $98
Includes: Bacteriological & Chemical
Tests for Nitrate, Fluoride, Hardness,
Chloride, Iron

WHAT SHOULD I DO IF I HAVE HIGH LEVELS OF CONTAMINANTS?

1. General Questions?
   Waukesha County Environmental Health
   (262) 896-8300
   sod@waukeshacounty.gov or visit
   www.waukeshacounty.gov/watertest/

2. Learn About Health Concerns
   Contact: Wisconsin Dept of Health Services
   (608) 266-1120
dhsEnvHealth@wi.gov
https://go.wisc.edu/dhs-private-wells

3. Learn About Mitigation Strategies
   Find more information on filtration and other
   household water treatment systems at:
https://go.wisc.edu/mitigation-strategies

4. Schedule Well Repairs
   If your tests indicated a problem, you may need to
   contact a well driller or pump installer.
